***We all walk
- let's walk more***

Better to live in

***YOUR mind and body
YOUR community
OUR planet***

Living Streets Hamilton:

Promoting a vibrant, safe and liveable city

Our main aim is to promote the benefits of walking, for recreation and as a means of transport – to work or school, shopping or visiting

We want to:

- Improve conditions for all walkers, including those with disabilities and those with young children
- Have an input into Council decisions on city design and transport
- Encourage other road users to respect the needs and safety of pedestrians
- Work with other community agencies to make these things happen

Walking.....

- Is cheap (no petrol, no car, no repair bills!)
- Is good exercise
- Helps you get to know your neighbours and your community
- Helps reduce crime – people on the streets deter petty criminals
- Prevents pollution
- And it's fun!

We are a branch of Living Streets Aotearoa (established in 2002), which works to develop pedestrian-friendly communities throughout New Zealand, and to promote the benefits of walking as a means of transport and recreation.

Living Streets Hamilton holds monthly meetings with a range of guest speakers, and provides a way for people to voice their concerns about walking matters to suitable council subcommittees
